

Opdatering af drivers

<p>1</p>	<p>Start med at gå ned i start, skriv Dell Command Update og tryk på ikonet, som kommer frem.</p> <p>Eventuelt findes ikonet også under D</p> <p>Findes ikonet ikke kan programmet hentes og installeres via dette link</p>	 <p>The screenshot shows the Windows Start menu search results for 'Dell Command Update'. The search bar at the top contains 'Dell Command Update'. Below the search bar, there is a list of results under the heading 'Dell'. The results include 'Dell Command Configure Prompt', 'Dell Command Configure Wizard', 'Dell Command Update', and 'User's Guide Online'. A red arrow points to the 'Dell Command Update' icon.</p>
<p>2</p>	<p>Tryk på Kontroller</p>	 <p>The screenshot shows the Dell Command Update application interface. At the top, it says 'Velkommen'. Below that, it explains that the application searches for updates for BIOS, drivers, firmware, and Dell programs. There is a section titled 'Opdateringer' with the instruction 'Søg efter opdateringer til dit system ved at klikke på KONTROLLÉR.' A red arrow points to the 'KONTROLLÉR' button.</p>
<p>3</p>	<p>Hvis der er opdateringer til din computer vil du have mulighed for at trykke Installer</p>	 <p>The screenshot shows the Dell Command Update application interface with the 'Valgte opdateringer' section. It displays 'Valgte opdateringer (11 af 11; 1,2 GB)'. There are three categories of updates: 'Vigtige opdateringer (3 af 3; 230,8 MB)', 'Anbefalede opdateringer (8 af 8; 1,0 GB)', and 'Valgfri opdateringer (0 af 0)'. The first two categories are checked. At the bottom, there is a 'VIS OPLYSNINGER' link and an 'INSTALLER' button. A red arrow points to the 'INSTALLER' button.</p>
